Webinar#4

Technical implementation of nature-based solutions

UrbanByNature in China: a programme supported by Connecting Nature and CLEVER Cities and hosted by CitiesWithNature

Date: Wednesday, 24 November 2021

Time: 3.30-5.00 PM (BJT/CST), 8.30-10.00 AM (CEST)

Platform: Zoom

Language: Chinese and English

Click [here](#) to register!

The fourth UrbanByNature (UbN) China webinar, introducing STEP5/IMPLEMENT of the UbN programme, will zoom in on the technical aspects of NBS design and delivery. Speakers from Connecting Nature, CLEVER Cities and China will outline how they went about choosing the most appropriate nature-based solutions. They will elaborate on selection criteria they used for comparing different options such as performance, costs, maintenance requirements and site conditions to identify the right interventions for their local contexts and needs. Furthermore, the importance of facilitating the acquisition of technical skills for NBS design and delivery as well as identifying suitable nature-based enterprises for NBS implementation will be discussed. With the emerging market sector for NBS, different business models need to be explored and further expanded.

Opening remarks

Youde Tang, Program Manager, ICLEI East Asia Secretariat Beijing Office, China

Selecting and implementing NBS for urban regeneration in Neugraben-Fischbek, Hamburg

Sophio Konjaria-Christian, CLEVER Cities Project Coordinator, District Council of Harburg, Hamburg, Germany

The UrbanByNature programme has received funding from the European Union's Horizon 2020 innovation action programme under grant agreements No 730222 & No 776604.
