

Stiemervalley

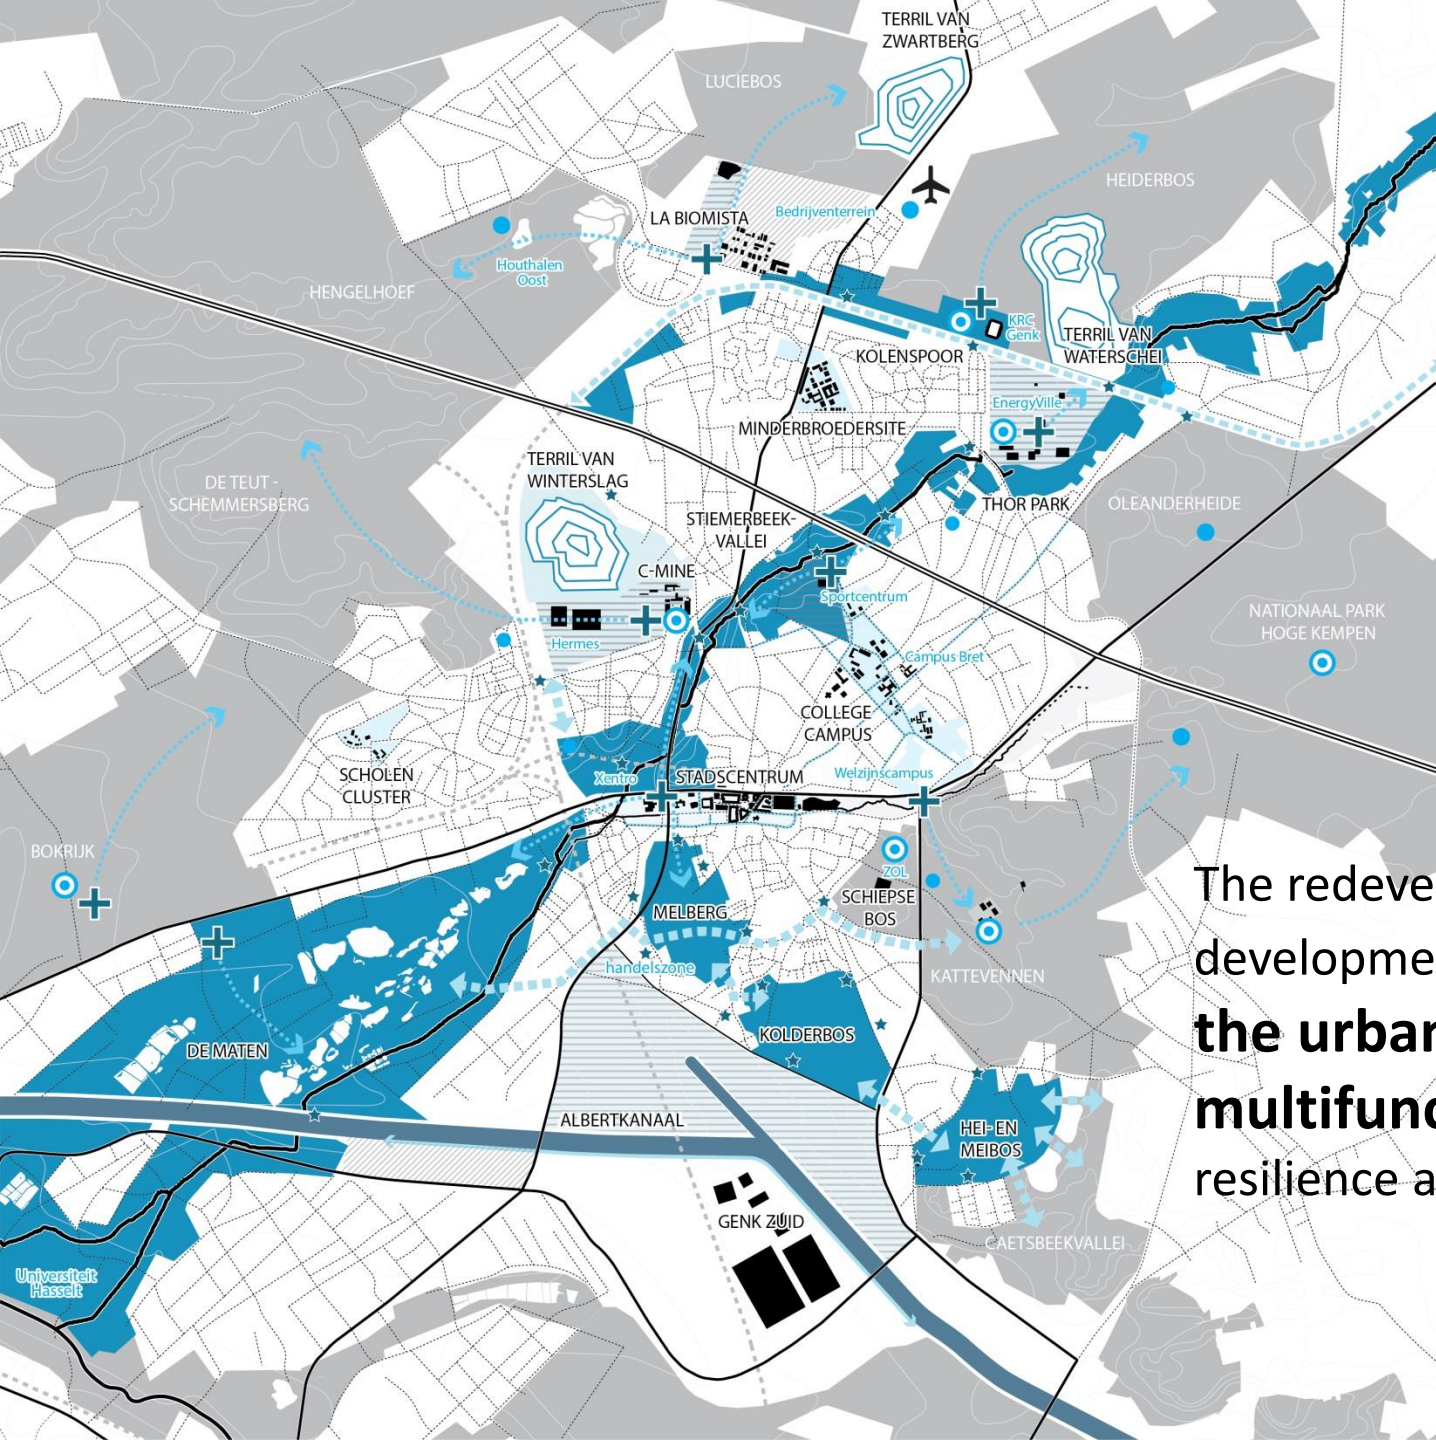

NBS framework

Bringing
cities to life,
Bringing life
into cities.

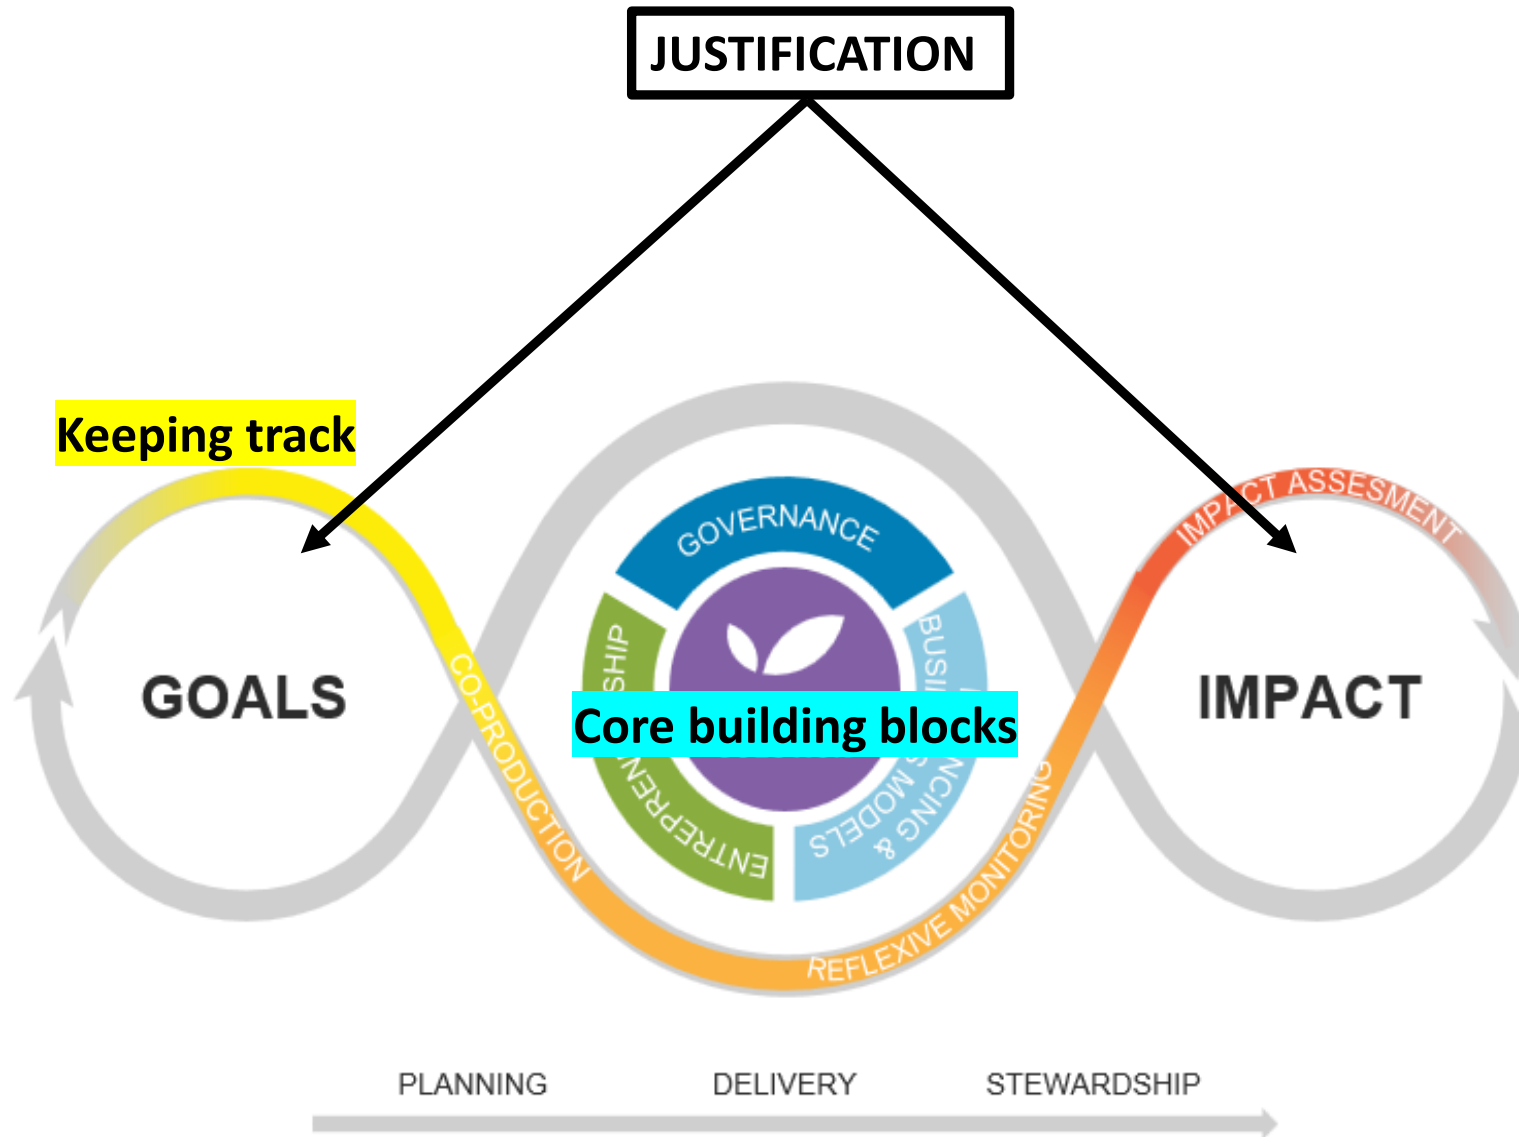

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 730222

The redevelopment of the Stiemer valley is an urban development programme with the aim of **upgrading the urban valley area** of the Stiemer to a **multifunctional blue-green artery** that increases resilience and quality of life in the city.

Implementation Framework – city perspective Genk

Impact Framework on Stiemerprogramme

Governing complexity

Multi-value

Ecologic, social, economic value proposition
