

Reflexive monitoring exercise II

Record your learnings

Carien van der Have - DRIFT

Bringing
cities to life,
Bringing life
into cities.

Co-funded by the Horizon 2020
Framework Programme of the European Union

Reflexive Monitoring in Connecting Nature

“Reflexive Monitoring as one of the main success factors in the Genk Stiemer Valley program”

Experience Reflexive Monitoring during the Connecting nature Impact Summit

- ✓ Make learning objectives explicit
- ✓ Take time to reflect on events
- ✓ Let things around you impact your process
- ✓ Translate experiences into lessons into actions

Connecting Nature Impact Summit

Connecting Nature Impact Summit
Thursday 28th April Streamed sessions

09:00-09:30 Welcome & Introduction
 • Wim Orlens, Mayor of Dink (Belgium)
 • Barbara Willems, Co-ordinator Connecting Nature (Belgium)

09:30-10:00 **Theme: Thinking with Nature**
Alphard: The business of Bee. Making progress by rediscovering how life works.
 A thought-provoking reflection on the lessons that nature can teach and share the latest breakthrough insights from the world of science and make a solid case for why 'natural intelligence' (NI), not Artificial Intelligence (AI) should be at the forefront of societal innovation. We will explore how nature-based solutions (NBS) can drive us progress.
 Leon Barbiers, Founder Connect4 (Belgium)

10:00-10:30 **The Connecting Nature Framework for achieving impact from nature-based solutions (NBS)**
 Marko Cornejo, IRL and Carole van der Horst, DRYT will take us through the Connecting Nature Framework for the implementation of NBS and we'll hear from others on their experience, lessons learned and challenges remaining.
 • Marko Cornejo, Associate Professor in Sustainability at University of East London (UK)
 • Carole van der Horst, Researcher and Advisor DRYT (Netherlands)

10:30-11:00 Coffee break

11:00-11:30 **Theme: Policy for scaling nature-based solutions - where do we go from here?**
 Policy for scaling NBS
 Join us to hear from European, national and all policy makers about the policies needed and planned to upscale nature-based solutions towards a nature-positive, just, resilient and equitable economy.
 Speakers include:
 • Tineke Beunen, French Member for Justice and Enforcement, Environment, Energy and Tourism (Belgium)
 • Wim Orlens, Mayor of Dink (Belgium)
 • Philippe Tallema, Head of UN, Climate and Resilience Solutions, DG Research and Innovation, EC (Belgium)
 • David H. Janaki, Scientific Researcher for the Institute for Urban and Forest (IBUF) (Denmark)
 The policy dialogue will include the launch of a new EC Expert Publication 'The Role of Nature-Based Solutions in the Nature-Positive Economy'.
 Chair: Hedger Barbiers, Deputy Regional Director for Europe at ICLM

11:30-12:00 **Theme: Thinking with Nature**

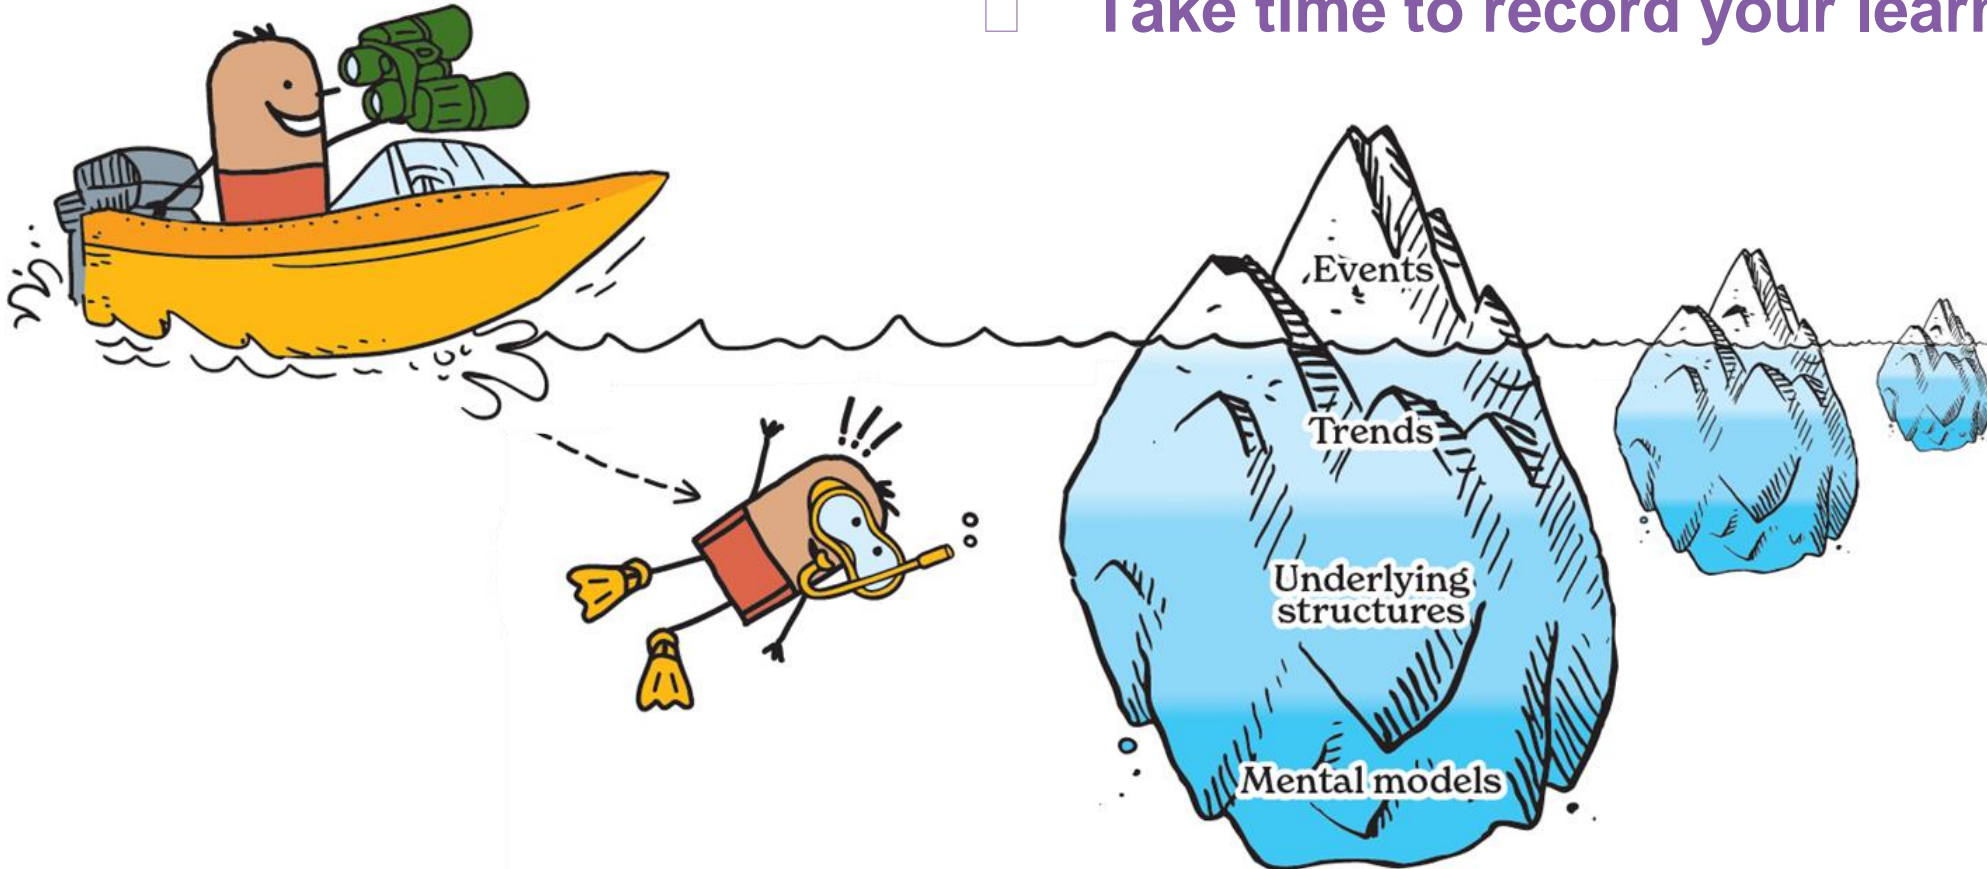

Reflexive Monitoring is

a process to support you to *identify, reflect on* and *respond* to the challenges and opportunities you encounter in a process by introducing multiple perspectives.

Sometime we should dig deeper!

- Take time to record your learnings

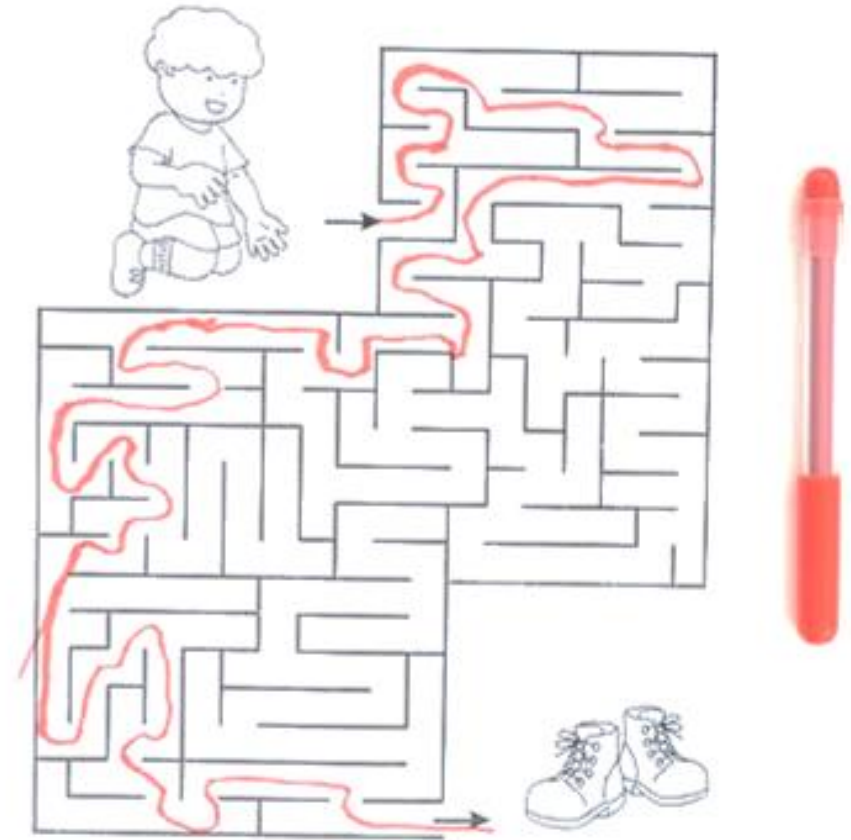

Record your learnings

Record your Learnings

- .. To trace your steps and monitor progress
- .. To share learnings with others
- .. To let learnings impact your process

Bringing
cities to life,
Bringing life
into cities.

Record your Learnings

Share your learning objective with your neighbour

✓ What did you **notice** about your learning objective?

✓ is a long-term wish, something new, something small or big, related to networking or gaining new skills etc.)

✓ What was the **effect** of making your learning wish explicit?

✓ Would you like to **change** your learning objective?

- Discuss with your neighbor

Bringing
cities to life,
Bringing life
into cities.

Record your learnings

More on reflexive monitoring..

Tomorrow

📅 15:15, Auditorium
Closing reflections
